PILLOWCASE INSTRUCTIONS

Pillowcases are a quick, easy project and really give a finishing touch to any room with a beautiful quilt. Don't forget pillowcases as gifts too! Flannels or fun prints for kids make a great choice, and they love them!

DIRECTIONS

Material for one Pillowcase
3/4 yd for the body of the case
1/3 yd for the heading
1/8 yd for the lip

For each additional pillowcase, double these amounts.
Finished size is approximately 20 1/2 X 30 1/2

Press lip in half lengthwise. Open the body of pillowcase fabric all the way.
Pin the lip fabric lengthwise to the right side of the body fabric.

Take header fabric and lay out right side facing up.

Lay body & lip which you have pinned together on top of the right side of the header fabric and pin these to the header fabric.

Roll up the body fabric so it is out of the way and pin the bottom of the header fabric to the top where you have already pinned the header, body and lip.

You should now have the body & lip inside the header in a kind of tube.

Sew all fabric together using a 1/4 inch seam.

Be careful not to sew any of the body to this seam.

Pull body out of the header tube. Press header on both sides.

Sew edges of body wrong sides together.

Turn pillowcase inside out and stitch seam at 1/2 in. to cover the 1/4 in seam.
